Infrastructure Projects

FUFA Projects Manager Sumaya Kiwanuka

Since the last General Assembly in 2024 at Maya, FUFA has focused on:

FUFA Lugazi Stadium

Secured and maintained the land donated to FUFA by the Buganda Kingdom for future development, with plans to construct a 20,000-seater stadium. Ongoing efforts include landscaping and protecting the land against encroachers.

FUFA Technical Centre, Njeru

Upgraded the facility with a new artificial turf, enabling it to host top-level matches, thanks to a successful partnership with BUL FC. As one of FUFA's member clubs, BUL FC currently utilises the facility as their home ground in both the Uganda Premier League and FUFA Juniors League.

FUFA Kadiba Technical Centre and Stadium

Kadiba Stadium has been a key focus area for FUFA since the 2024 AGM, thanks to funding from the FIFA Forward Programme. The facility will serve as a designated training ground for CHAN 2024 and PAMOJA AFCON 2027, and is set to be handed over to CAF by July 15th for CHAN 2024 preparations.

To secure the facility from encroachment, FUFA acquired additional land adjacent to the stadium using \$460,600 from the FIFA Forward Programme. This purchase increased the total land area to approximately 6.4 acres.

The ongoing project has made significant progress, including the construction of a pavilion's foundation and substructure, upgraded floodlights meeting CAF standards, installation of a standby generator, natural playing turf, office space, stadium seating, and dressing rooms. Other completed works include perimeter fencing, security lighting, and access road improvements in partnership with KCCA.

Work on Pavilion 1 is also underway, with plans to upgrade the stadium further. Looking ahead, our vision for Phase 3 includes increasing the seating capacity to 20,000, completing the second set of dressing rooms, extending land procurement, and building a hostel for accommodation.

FIFA Club Professionalisation and Management Programme

After its successful launch at Golden Tulip in Kampala in 2024, the programme has been delivering sessions through both physical and online platforms. Participating clubs were tasked with submitting strategic plans, with the most

comprehensive one earning an all-expenses-paid trip to the FIFA Club World Cup in the USA.

FUFA President Hon. Magogo Moses Hassim congratulated URA FC on their historic recognition by FIFA for submitting the winning strategic plan, which focused on nurturing talent for sustainable development.

The plan emphasised developing players from grassroots to life after football, achieving governance, business, and sport pyramid goals by balancing four key perspectives: financial, internal processes, stakeholders, learning, and growth.
